To Whom It May Concern

This is a letter to confirm that Flow Centric have installed water evaporators at our site (old Arnot opencast).

The evaporators have now been running at our operation for more than 24 months and we encountered no problems with the mechanical parts of the machines.

The spray nozzles have also not given us any problems, the only improvement that I could propose is with regards to better rust protections of the fan screens.

Overall we are satisfied with the service delivered by Flow- centric

Yours Sincerely

Johan van der Walt

Mine Closure Superintendent
